

CITY OF TAMPA

Pam Iorio, Mayor

CONTRACT ADMINISTRATION DEPARTMENT

David L. Vaughn, AIA, Director

ADDENDUM NO. 5 DATE: July 28, 2010

Contract: 10- C-00049; ARRA EECBG Energy Management System Installation at Old City Hall, Tampa Police Department Headquarters, Tampa Fire Rescue Headquarters

Bidders on the above referenced project are hereby notified that the following addendum is made to the Contract Documents. BIDS TO BE SUBMITTED SHALL CONFORM TO THIS NOTICE.

Item 1: Clarification: Details on sheet ME1.3.4 only apply to Old City Hall.

Item 2: Clarification: Two different design concepts were utilized because of the way the building lighting is circuited and the way the building is occupied. Occupancy Sensors: City Hall Sheet ME1.3.4 indicates occupancy sensors feed into BAS lighting panel, where BAS logic determines occupancy and controls each zone lighting circuit. In the Police Station, Sheet ME2.0.1, detail is provided showing the occupancy sensors connect to a power pack to control each zone lighting circuit locally.

Item 3: Clarification: Tampa Police Department and Tampa Fire Rescue Headquarters contain multiple areas of the buildings lighting on a single circuit; the lighting control panel xLCPx is utilized to enable all lighting circuits while the motion detectors and power packs energize the local lighting branch after the switch.

Item 4: Clarification: Tampa Fire Rescue Headquarters utilizes the same concept as the police department so only details on the police department may apply. None of the details identified on Old City Hall will apply.

This addendum shall be included in and attached to the inside cover of the Contract Documents by and upon which bids are submitted.

All other provisions of the Contract Documents and Specifications not in conflict with this Addendum shall remain in full force and effect.

Questions are to be e-mailed to ContractAdministration@tampagov.net.
