

RFI-Energy Addendum

Extension:

The deadline for submission of responses to RFI-Energy is hereby extended to 2 PM, Thursday, October 8, 2009.

Clarification:

In response to inquiries and discussion at the pre-submission meeting the following clarification is made regarding certain ARRA EECBG items:

EECBG Application documents are posted for reference at http://www.tampagov.net/information_resources/recovery/files/EECBG_3.pdf .

The Energy Efficiency Conservation Strategy (EECS) is part of the application package. Simply scroll through the application until you come to the EECS. This presents the EECS in its appropriate context within the entire application.

Part of the Strategy is an element for Reduction and Capture of Methane and Greenhouse Gases. As funding is granted, a separate RFP, Request For Proposal, will be issued through the Purchasing Department.
