Re: Review of Tampa Police Patrol Deployment, Audit 05-02

---

Pursuant to the Internal Audit Department's FY2005 Audit Agenda, we planned to audit Tampa Police Department's Patrol Deployment. Based on the work performed, we determined that the methodology used to determine patrol deployment was sound and reasonable. As a result, risk associated with patrol deployment methodology was assessed at low and no further work was deemed necessary.

This review was substantially less in scope than an audit in accordance with generally accepted government auditing standards. The evidence obtained provided a reasonable basis for our conclusion (see above); however, had an audit been performed, other matters might have come to our attention that would have been reported to you and our conclusions may have been modified.

We thank the personnel of Tampa Police Department's Special Operation's Bureau for their assistance in conducting this review. We will consider this report to be final unless directed to continue our review.
