

A Clean City

Clean City Hotline: 931-2133

With the clean city division underway we hope to see a cleaner, better-maintained city that we can all be proud of.

This past June the city created a new division within city government - Clean City.

It's mission - to improve the appearance of our city, reduce litter in our neighborhoods, major thoroughfares, streets and rights of way. This division will continue to provide the services of the neighborhood NEAT program. Graffiti will be removed and parkways, medians and city owned vacant lots will be better maintained. The division also works to remove and dispose of illegal signage and provide landscape maintenance of our rights of way.

This division consists of 67 personnel and represents a consolidation of people and functions from other departments with this new focused mission.

More aggressive and systematic code enforcement has been a priority of this administration. Now, with the clean city division underway we hope to see a cleaner, better-maintained city that we can all be proud of.
