

Introduction

This book, the City of Tampa Recommended Annual Budget, and a companion book, the City of Tampa Recommended Budget Supplement, serve as the primary budget documents of the City of Tampa. In combination, these two books serve as the appropriations documents and provide detailed information about City government, its budget, and the services it provides. A third book, the Recommended Capital Improvement Budget provides a detailed six year plan of capital improvements. In addition, a newspaper report to citizens is being distributed to inform the public about City government. Budget information is also included in the City of Tampa's web site at <http://www.tampagov.net>.
