Response: From Jan Washington, Construction Engineer, Department of Public Works, Transportation Division, 274-8303. Each year, new sidewalk locations are selected from our database as candidates for construction based on citizen input, constructability, budget constraints, and a benefit/cost ratio. Citizens can submit requests anytime during the year and they will be evaluated. We retain the information until the sidewalk is built. If a citizen is interested in the current “ranking” of any requested segment, they are

encouraged to call the Sidewalk Section at 635-3407 for information.

We evaluated the requested locations and consider them to be priority 3 concerns. The following work orders are in our database:
