Try Our New **Plan Review Service**

Plan Review Staff Available Each Workday, 1-4 p.m.

One of our latest customer service enhancements is the new **Plan Review Service**. This service provides customers with expanded access to our technical staff via telephone or walk-in basis. It delivers additional technical assistance and guidance on the various construction codes and regulations.

You can now call or visit our Residential and Commercial Plan Review staff each workday between the hours of 1 p.m. and 4 p.m. to ask a technical code question or discuss your specific construction project. Simply call our main phone number or stop by our office and check in with the receptionist.

We encourage you to make an appointment, as our technical staff is busy performing plan reviews at other times throughout their work day. Someone will be available to assist you with your code questions during this designated time period each day.

Please visit our website at www.tampagov.net/permits for access to additional information and frequently asked questions.

Try our new **Plan Review Service** and get your questions answered promptly and professionally.
