

Construction Services **News**

Try Our New **Research Service**

Convenient Access to Construction Records 24 Hours a Day

We continue to explore, develop, and implement new ideas and ways to serve you better. Our latest improvement is the new **Research Service**, which enables you to search all of our archived construction plans and permit records. If you need another copy of your approved construction plans or you're simply researching permit records for an existing property, this service will allow you to go online and access our construction records from your office or home - 24 hours a day.

In order to provide customers with the most up-to-date information possible, all of our completed construction plans and permit records are digitized on a bi-weekly basis. Records may be researched by either address or permit number.

The service also allows you to view, copy, print or email records to an off-site printing service.

To use the service, simply log onto our website at www.tampagov.net/permits and click on the Research link.
