

TITLE

3.8.13. – ACCESSING DATA

HISTORY

Status	Date	Author	Approving Manager
Version 1.0	01/08/2010	K. Wright and G. De Stoppelaire	R. Austin

DESCRIPTION

To assure users of the CoT GIS Oracle Publication database have timely access to the highest quality, error free, and most up to date information possible, there are two types of GIS users:

- **Data Stewards, or GIS Power Users:** Data stewards and Power Users are individuals who produce maps, GIS software individuals that produce maps, software project files, or GIS software applications for use by anyone. Data stewards and Power users shall use data stored in the Oracle Development and/or Publication databases for producing maps, GIS projects, or GIS software applications.
- **Casual User Access:** Casual GIS users are individuals who use GIS tools to access read only data. Casual GIS users may use data from any source providing that the addition of any data to a shared repository complies with these standards.

Note: Free viewers are available for download. See section [3.8.13.1. Accessing Data – Available GIS Applications.](#)

REFERENCE

The standard described above has been developed internally by the City of Tampa. The standard is part of the T&I Service Catalog.
