U-WMBE Goal Attainment; 1.8%

Good Faith Effort Compliance: Compliant - Met Requirement

The Equal Business Opportunity Office evaluated the Good Faith Effort Compliance Plan (GFECP) submitted by low bidder JVS Contracting, Inc and determined they complied with the requirements of the Equal Business Opportunity Program (EBO) by having performed meaningful action steps to (a) identify and (b) directly solicit Underutilized-WMBE eligible companies to quote divisions of work commensurate with the participation goal. The project goal was narrowly-tailored on the basis of four (4) out of seven (7) subcontract categories wherein the requisite, eligible U-WMBE companies represented a minimum availability group of twenty (20+) firms, within an overall availability group of sixty (90+) available COT certified companies by subcontract tasks.

NOTE: The subcontract goal is narrowly-tailored (per policy) to target underutilization of affected groups in specific trade/industry categories. Any WMBE/SLBE achievement that was not a variable in calculation of the narrowly-tailored goal is considered ancillary. Ancillary participation cannot be credited toward meeting the narrowly-tailored goal but may count toward the bidder's overall project participation when GFECP criteria for the underutilized group are met.

RE: EBO Bid Compliance Evaluation - GFECP Solicitation and Utilization Audit

PROJECT: 20-C-00033: FY20 Water Utility Relocation

2<sup>nd</sup> LOW BIDDER: Southern Underground Industries, Inc.

BID AMOUNT: \$7,968,668.55

U-WMBE (BBE) Subcontract Goal: 16.6%
U-WMBE Goal Attainment: 22.2 %

Good Faith Effort Compliance: Compliant - Met Requirement

The Equal Business Opportunity Office evaluated the Good Faith Effort Compliance Plan (GFECP) submitted by 2<sup>nd</sup> low bidder Southern Underground Industries, Inc and determined they complied with the requirements of the Equal Business Opportunity Program (EBO) by having performed meaningful action steps to (a) identify and (b) directly solicit Underutilized-WMBE eligible companies to quote divisions of work commensurate with the participation goal. The project goal was narrowly-tailored on the basis of four (4) out of seven (7) subcontract categories wherein the requisite, eligible U-WMBE companies represented a minimum availability group of twenty (20+) firms, within an overall availability group of sixty (90+) available COT certified companies by subcontract tasks.

NOTE: The subcontract goal is narrowly-tailored (per policy) to <u>target underutilization of affected groups in specific trade/industry categories</u>. Any WMBE/SLBE achievement that was not a variable in calculation of the narrowly-tailored goal is considered ancillary. <u>Ancillary participation cannot be credited toward meeting the narrowly-tailored goal</u> but may count toward the bidder's overall project participation when GFECP criteria for the underutilized group are met.

### **U-WMBE** Subcontract Goal Attainment

<u>Compliance Statement:</u> Total U-WMBE goal participation is 22.2% representing BBE (African American Enterprise).
