

City of Tampa Parking Division Parking Equipment Automation Pull...Pay...Be on your way!

The City of Tampa Parking Division now offers a new and exciting way to pay for your parking when visiting downtown Tampa. As of **August 2007**, both the William F. Poe Garage and the Tampa Convention Center Garage will be equipped with fully automated parking equipment. No more unfortunate backups when exiting the parking garage. Now you determine the outcome of your parking experience. It's as easy as one, two, three and you'll be on your way.

Here's all you need to know:

1. When you enter the parking garage you simply push the button and **PULL** an entry ticket from the ticket dispenser.
2. Prior to exiting the garage, you simply **PAY** your parking fees at a conveniently located pay station.
3. As you exit the garage, insert your paid ticket into the exit verifier and **YOU'RE ON YOUR WAY!**

1. Entry Ticket Dispenser

2. Central Pay Station

3. Exit Ticket Verifier

This new system now allows you to pay by credit card, debit card, currency and coin. Additionally, when **special event rates** are in effect at these facilities, you now have the opportunity to pay the flat rate prior to attending the event or you can wait until after the event to pay. You make the decision. Once you've paid, simply hang on to your paid ticket until you're ready to be on your way!
