### PROJECT DESCRIPTION

This project provides relief for frequent and extreme flooding and to address bank erosion of the canal and ditches draining the watershed. The Lamb Canal Rehabilitation and Flood Relief project will include improvements to Lamb Canal between Westshore Blvd, and Manhattan Ave. and Emerson Ditch between Lamb Ave. and Bay-to-Bay Blvd.

### BENEFITS TO THE COMMUNITY

- Relieve flooding and improve traffic flow and safety.
- Protect water quality and restore natural habitats.
- Supports system and community resiliency to impacts of climate change.
