

# PRESENTATION STAGES

Familiar Stage For A New Environment

## CONTROL HOW YOUR MESSAGE IS DELIVERED

The Presentation Stage will offer you a high-level of control over how your message is professionally delivered. It provides a pathway to effectively communicate to your remote audience by utilizing a set that is similar to what they are used to during in-person event experiences.

### FLEXIBLE LOCATIONS

Our global footprint allows us to deliver a consistently high-level of production wherever you need it.

### EFFECTIVELY DELIVER YOUR MESSAGE

No one supports more events than PSAV— we share ownership of the event experience, delivering peace of mind with industry-leading technical expertise.

### CREATIVE & TECHNICAL RESOURCES

Creative and technical expertise is the baseline. Knowing how to apply those skills to best-deliver your message is what sets PSAV's Presentation Stages apart from the rest.

# WHY USE A PRESENTATION STAGE?

## SAFE SPACE

Our team maintains a clean space following MeetSAFE™ standards.

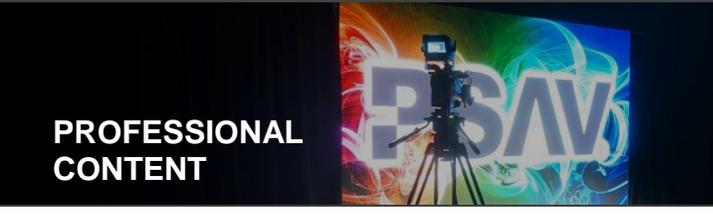

## CONTROLLED ENVIRONMENT

Presentation Stages are controlled, studio-like environments where you're able to work on delivering your message free of distractions.

## CURATED TECHNOLOGY

This innovative solution is outfitted with thoughtfully designed technology including audio, video, lighting, and scenic design, all purpose-built to work together regardless of your event type.

## PROFESSIONAL CONTENT

With custom graphics, presenter coaching, and professional broadcasting, we help you market the message through digital channels – further enticing viewership and attendance.

## GLOBAL EXPERIENCE / STAGE TO YOU

Can't make it to one of our pre-established Presentation Stages?  
We'll bring one to you with the same confidence and world-class service you expect.

# COVERING THE ESSENTIALS

A consistent experience via a consistent suite of technology, anywhere you need it. The core technologies in PSAV – Encore's Presentation Stage designs provide professional-grade equipment that both presenters and attendees have come to expect and appreciate. You have three stage options to select from which include these essentials.

## VIDEO SUPPORT

### For Flawless Presentations

Our HD cameras provide excellent picture quality at high network speeds. This results in video that is better than that of a standard web camera, providing you with a more professional delivery of your presentation.

## PROFESSIONAL LIGHTING

### For Visual Impact

Our stages include an essential 3-point lighting system that covers the bases for professional, evenly-lit presenters.

## QUALITY SOUND

### Re-enforcement To Deliver Your Message

Our production audio equipment sets the industry standard for delivering clear, audible messaging. Our packages give each presenter a main and backup microphone as well as audio speakers on stage to hear video playback and any remote Q/A.

## PRESENTATION SUPPORT

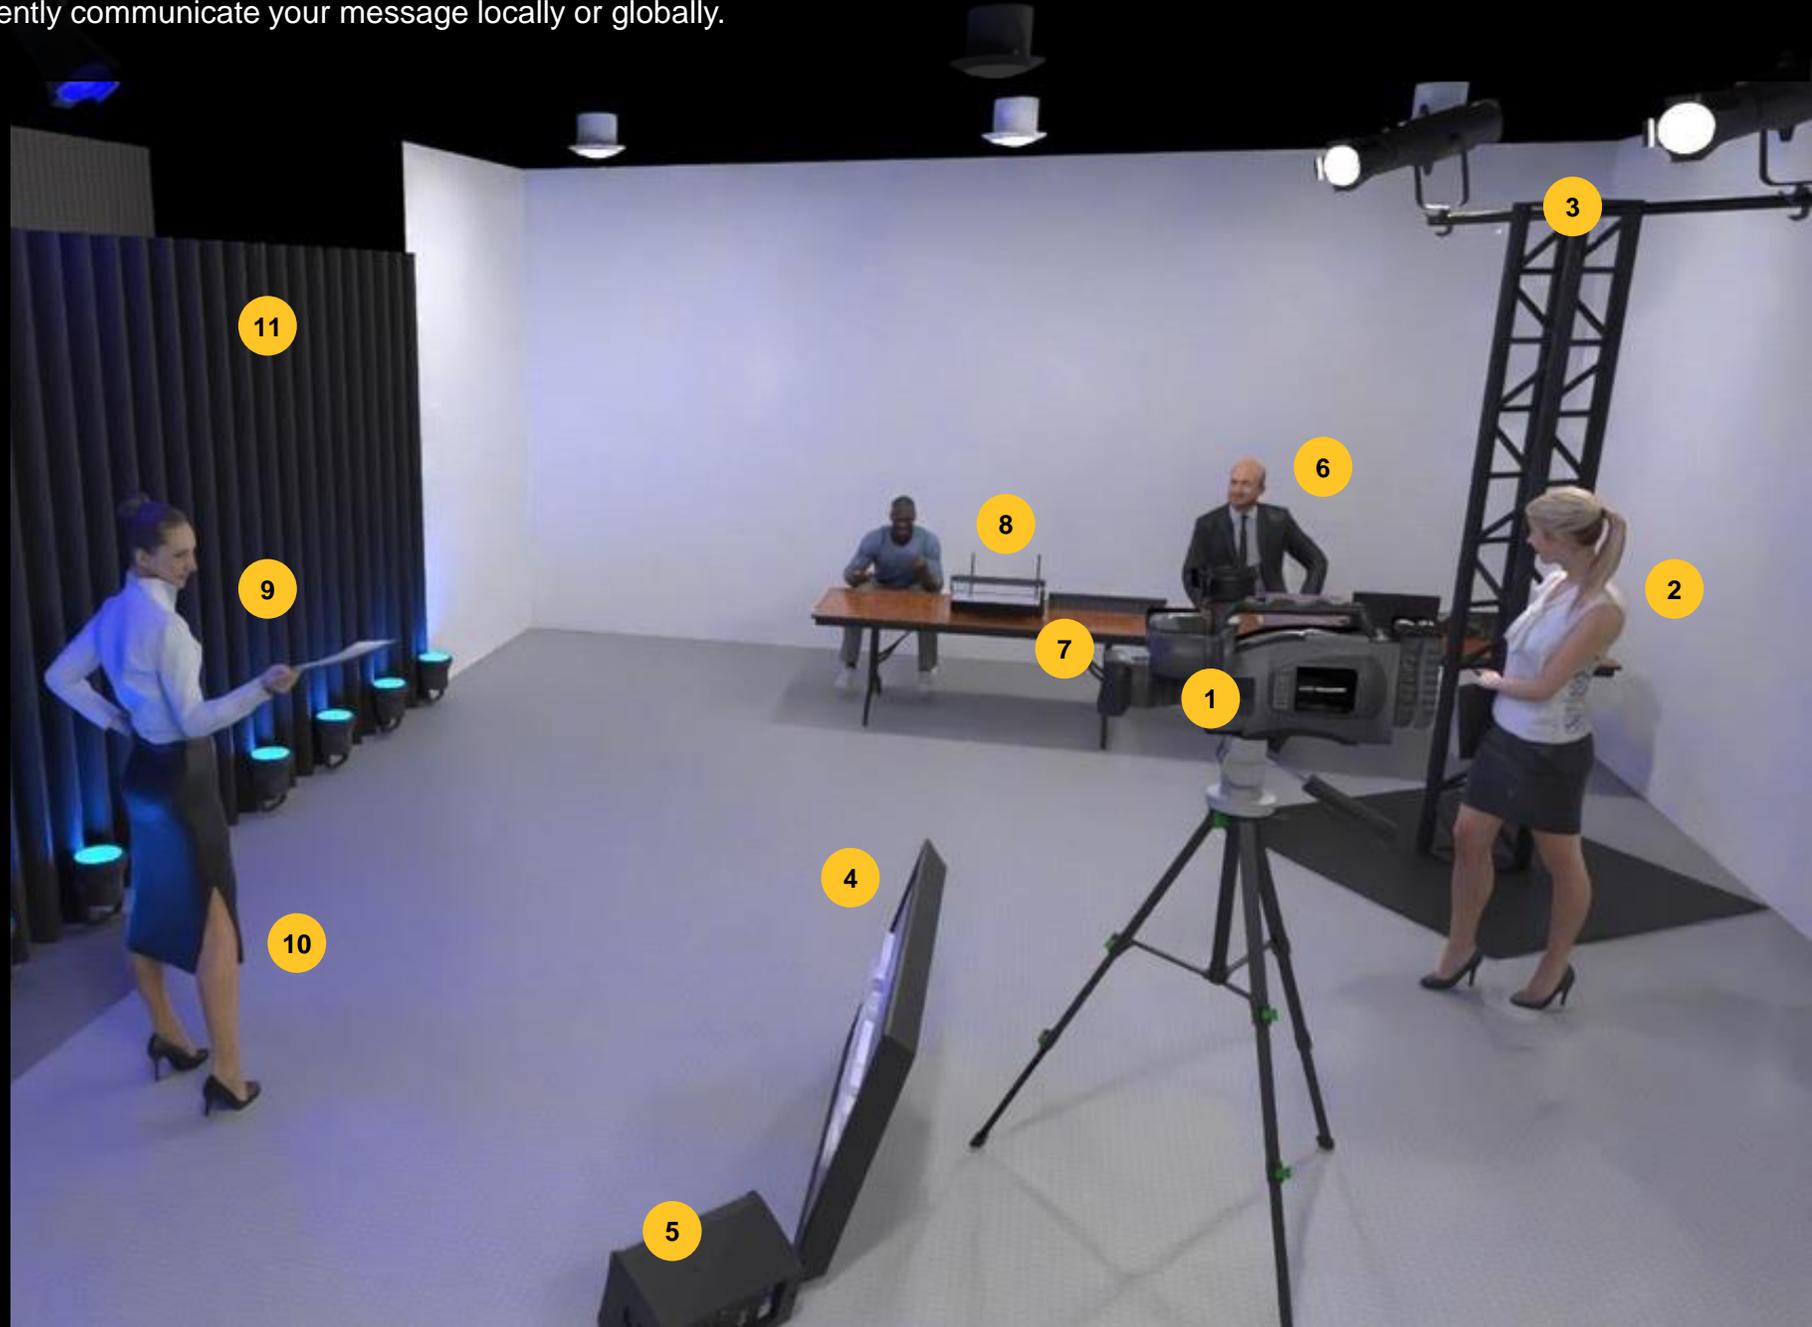

### Creative and Technical

Deliver professional content through the provided presentation accessories and rest assured that you will have experienced technicians and support staff to ensure a flawless presentation...

# STAGE 1

Our most essential and efficient communication package. Included in this package are the tools you need to professionally and efficiently communicate your message locally or globally.

- 1 1 HD Camera
- 2 Project Manager
- 3 3-point lighting to ensure consistent, clean image
- 4 1 Confidence monitor for notes, slides or information.
- 5 Audio monitor to hear communications and media
- 6 Technical Engineers to support and operate
- 7 Graphics computer for PPT or Keynote
- 8 Video recording device and virtual neutral encoder
- 9 Professional microphones
- 10 1 Presenter on screen
- 11 Background of pipe and drape with up lights included in every package

## STAGE 2

Designed with two presenters in mind and incorporates the proper amount of technology to create an amazing visual experience.

### ADD-ON FOR STAGE 2

- 1 Project manager and Stage Manager

sTILer Panels

**Scenic Flat Solutions**  
Backdrop Pro

**LED Wall Solutions**

## FURNITURE SOLUTIONS

Sofa

Chair

End Table  
Coffee Table

Barstools

Display Pedestal

Silk Plants

## WHERE WILL YOU SET THE STAGE?

While a Presentation Stage can be set-up in most environments, these are some key considerations to keep in mind:

### PHYSICAL SPACE

Presentation Stages can be built at a corporate office or boardroom, we're happy to work with you to assess your space.

### LIGHTING & SOUND

Control ambient lighting and sound for a smooth presenter experience and superior overall event quality.

### POWER & INTERNET CONNECTIVITY

Requirements can be assessed based on the selected space and location.

Creating an engaging virtual or hybrid experience for your attendees is possible with the right tools and the right team.

To be most effective, it also requires the right space.

# LET US SET THE STAGE FOR YOU
