TAMPA CONVENTION CENTER BANNER GUIDE

BANNER MANUFACTURING GUIDELINES

LOCATIONS 1 - 18:

All banners intended for these locations can be made of vinyl or cloth. These banners are to be constructed with 3" pole pockets top and bottom. All pole pocket seams must be double stitched. NO heat seams or adhesive seams will be allowed to fly. Please understand that it is sometimes necessary to cut small holes in the banners top pocket in order to maintain integrity of the banner shape and decrease wrinkles.

ALTERNATE AND EXTERIOR LOCATIONS:

The banner construction, installation labor and equipment needed for these locations can vary. Please contact the Encore Sales team for assistance, specifications and to request an estimate.

INCENTIVE RATES are offered for orders received 21 days or more prior to installation day.

STANDARD RATES are offered for orders received inside of 21 days prior to installation day.
