This environmental assessment is of the Tampa Streetcar Preferred Alternative and for infrastructure related to design. This environmental review assessed the project study area to determine the potential for contamination of the proposed Tampa Streetcar existing and extension alignment from adjacent properties and business operations.

Methodology

A desktop environmental database review was conducted in July 2019. HDR reviewed electronically available information on the Florida Department of Environmental Protection (FDEP) Oculus website for the Preferred Alternative. This review identified locations including but not limited to underground storage tanks (USTs), petroleum discharges, registered dry cleaners, superfund sites, solid waste sites, and brownfield sites. The following buffer distance was used for the desktop review:

- 500 feet from the right of way line for petroleum, drycleaners, and non-petroleum sites.
- 1,000 feet from the right of way line for non-landfill solid waste sites
- 1-mile from the right of way line for CERCLA, National Priorities List (NPL) Superfund sites, or Landfill sites

The environmental database search was performed by Environmental Data Resources (EDR). The EDR search distance varied between a ¼-mile, ½-mile, and 1-mile buffer from the centerline of the Tampa Streetcar existing and proposed extension alignments, depending on the database variable. This database search utilized a geographic information system integrated database that included both federal and State regulated sites. The following databases were reviewed with the Oculus or EDR databases.

Federal Databases

1. National Priorities List (NPL) –The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program.
2. Comprehensive Environmental Response, Compensation and Liability Information System List (CERCLIS)/Superfund Enterprise Management System (SEMS)–tracks hazardous waste sites, potentially hazardous waste sites and remedial activities performed in support of EPA’s Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.
Records of Decisions (ROD) System – ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

 Archived CERCLIS Sites (No Further Remedial Action Planned List (NFRAP))/ SEMS Archive The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA’s knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site.

 Emergency Response Notification System (ERNS) List – This database stores information on the notification of oil discharges and hazardous substance releases. It is a cooperative data sharing effort among the USEPA, US Department of Transportation, and the National Response Center.

 Resource Conservation and Recovery Information System (RCRIS) Handlers with Corrective Action Activity (CORRACTS) – This database lists hazardous waste handlers that have undergone Resource Conservation and Recovery Act (RCRA) corrective action activity.

 Hazardous Waste Data Management System (HWDMS) – This historical database was replaced by RCRIS. The HWDMS list formerly tracked sites involved in the generation, transportation, treatment, storage, and/or disposal of hazardous waste.

 RCRA-Large Quantity Generator (LQG), Small Quantity Generator (SQG), Conditionally Exempt SQG and Transporters (NONTS) – This list is a subset of the USEPA RCRIS list and identifies facilities that generate and transport hazardous wastes.

 RCRA Treatment, Storage and/or Disposal Sites (TSD) – This list is a subset of the USEPA RCRA Info System and identifies facilities that treat, store, and/or dispose of hazardous waste.

 RCRA Administrative Action Tracking System (RAATS) – This list is a historical RCRA enforcement database that tracked facilities found to be major violators under RCRA. Data entry in this database discontinued in 1995.

 Tribal Lust List (TRIBLLUST) – This database lists active and closed storage tank facilities on Native American lands. The database is created by extracting records from the storage tank databases that have indicated current or past releases.

 Tribal Tanks List (TRIBLTANKS) – This database lists active and closed storage tanks on Native American lands.

 Facility Registry System (FRS) – The FRS is a centrally-managed database of sites regulated by Program Offices of the USEPA, such as air, water, and waste. The FRS has replaced the Facility Index System List (FINDS).

 Toxic Release Inventory System (TRIS) List – This list identifies facilities that are required to submit annual reports relative to the estimated routine and accidental release of toxic chemicals to the environment, as stipulated under current federal laws.

 Biennial Reporting System – This system collects data on the generation and management of hazardous waste from large quantity generators and treatment, storage, and disposal facilities. The data are reported on even years by the facilities to state environmental agencies that provide the information to regional and national USEPA offices.

 PCB Activity Data System (PADS) – This list contains sites that have notified the USEPA of their activities relative to the generation, transportation, permitted storage, and permitted disposal of polychlorinated biphenyls (PCBs) under the Toxic Substances Control Act.

 Permit Compliance System (PCS) – This is a data system for the National Pollutant Discharge Elimination System (NPDES) permit holding facilities.
18. Brownfields Management System (USBRWNFLDS) – This database stores information reported by USEPA brownfields grant recipients on brownfields properties assessed or cleanup up with grant funding.

State Databases

1. Underground/Aboveground Storage Tanks (TANKS) – This database contains sites with registered aboveground storage tanks (AST) or UST containing regulated petroleum products.
2. Leaking Underground Storage Tanks List (LUST) – This list identifies facilities and/or locations that have notified the FDEP of a possible release of contaminants from storage systems.
3. Solid Waste Facilities List (SLDWST) – This list identifies locations that have been permitted to conduct solid waste handling activities. Activities may include landfills, transfer stations, and sites handling bio-hazardous wastes.
4. State Sites List (STCERC) – This historical list contains sites that the Florida Department of Environmental Regulation (now FDEP) compiled to track suspect contamination sites. The FDER updated this list, previously known as the Florida SITES list, in 1989.
5. State Funded Action Sites (STNPL) – This list contains facilities and/or locations that have been identified by the FDEP as having known environmental contamination and are currently being addressed through State funded cleanup action.
6. State Hazardous Waste Notifiers (STRCRA) – This list identifies facilities that generate, transport, treat, store, and dispose of hazardous waste.
7. State Institutional and/or Engineering Controls (INSTENG) – This list contains sites that have had institutional and/or engineering controls implemented to regulate exposure to environmental hazards.
8. State Designated Brownfields (BRWNFLDS) – This database contains a listing of State-designated brownfield areas. Brownfield areas are typically abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination.
9. State Voluntary Cleanup (VOLCLNUP) List – Derived from the FDEP Brownfields Site Rehabilitation Agreement database, the VOLCLNUP database identifies sites that have signed an agreement to voluntarily cleanup a brownfield site in accordance with the FDEP’s requirements.
10. Florida Dry Cleaners List (DRY) – This list is comprised of data from the FDEP Storage Tank and Contamination Monitoring database and the Dry Cleaning Solvent Cleanup Program Priority Ranking List. This list contains dry cleaning sites (and suspected historical dry cleaning sites) that have registered with the FDEP for the Dry Cleaning Solvent Cleanup Program.

In addition to the database search of potential contamination sites, site reconnaissance from public areas were conducted on July 8, 2019 and July 9, 2019 to verify the locations of the sites included in the EDR and identified through the FDEP Oculus search. Site reconnaissance was completed from public areas for each facility having the potential for contamination involvement with the existing and proposed extension alignments. The sites were evaluated for possible contamination risks to project right of way, and construction activities.

During the site reconnaissance, observations made from public right of way were documented. Changes to the ground surface and landscaping, ground staining, standing liquids, odors, sink holes, ventilation pipes, drums and other storage containers, and other indications of current or previous petroleum and hazardous materials use and/or storage were noted. Telephone and onsite interviews were not conducted as part of this contamination screening process.
Risk Rankings

A hazardous materials rating system that expresses the degree of concern for potential contamination problems was used to rate the identified sites. The ratings are LOW, MEDIUM, and HIGH and are generally defined as follows.

**NO**: After a review of available information, there is nothing to indicate that contamination would be a problem. It is possible that contaminants could have been handled on the property. However, available information, including FDEP reports, monitoring wells, and water/soil sample test results indicate that problems should not be expected. An example of operations that may receive this rating is a wholesale or retail outlet that handles hazardous materials in sealed containers that are never opened while at this facility, such as spray cans of paint at a drug store.

**LOW**: These sites are listed in a regulatory database but do not indicate any non-compliance, spill or release, or documentation that would indicate a concern for design or construction.

**MEDIUM**: Database review provides information for non-compliance, a historic spill or release, or condition that may pose a threat to design or construction and further review will be required to rule out. HDR could not rule out an impact to the site. Further review of State or federal files may be warranted to provide greater insight to their impact to the project.

**HIGH**: High risk parcels identify sites with known existing releases to soil or groundwater that have a high likelihood to impact design or construction. Further document review or Level II assessment is required to understand the nature of the impact to the project.

Findings

Nineteen site were determined as having the potential for contamination involvement with the existing and proposed extension alignments (LOW, MEDIUM, or HIGH). Of the 19 sites investigated, the following risk rankings have been applied: eight HIGH ranking sites, five MEDIUM ranking sites, and six LOW ranking sites. There are over 100 sites listed in the EDR report that are within 500 feet of the project alignment that were determined to have NO potential contamination impact to the project. Given this significant number of sites determined not to have potential contamination involvement with the existing and proposed extension alignments, site reconnaissance was not performed for these sites, and therefore are not included in Table 1. Table 1 lists the contamination sites along the project corridor that may have potential contamination conditions. Figure 1 shows the location of the potential contamination sites along the project corridor. Individual site descriptions follow Figure 1 and include activities where a regulatory agency is, has, or may take action on any property where potential contamination could have an impact on the existing or proposed extension alignment.

Sites are located numerically based on the direction of the alignment and site visit. Sites were visited on the existing alignment starting at 8th Avenue and North 20th Street to South Franklin Street and East Whiting Street. Sites were visited around the area of potential effects for the proposed extension alignment in a clockwise direction along Tampa Avenue from Whiting Street to Palm Avenue then south along Florida Avenue from Palm Avenue to East Whiting Street.

For sites ranked “LOW” for potential contamination, no further action is required at this time. These sites/facilities have the potential to impact the study area, but have been determined to have low risk to the project at this time. Variables that may change the risk ranking include a facility’s non-compliance to environmental regulations, new discharges to the soil or groundwater, and modifications to current...
Should any of these variables change, additional assessment of the facilities would be conducted. Additional regulatory review of files with FDEP may be needed.

For those locations with a risk ranking of “MEDIUM” or “HIGH”, additional investigation and/or research is highly recommended in order to understand and refine the level of potential contamination conditions that may affect construction or worker health and safety. A thorough review of files with the FDEP and discussions with case managers may provide enough information on the contamination conditions and concerns at these sites to eliminate them from consideration or provide information to complete further intrusive assessment only where needed.

</table>
Figure 1. Potential Contamination Site Locations
SITE 1

Address: 1898 Nuccio Parkway, Tampa, FL 33605
Distance from alignment: 860 feet
FDEP Registered Name: Tampa Electric Co-Teco Data Center
Concern: HIGH

During the site visit, this site was private property, fenced around the entire perimeter. The site is located approximately 850 feet from the existing Tampa Streetcar alignment. Based on FDEP information and EDR report, the site was a fuel user/non-retail facility that had two active USTs on site which were used to provide fuel to emergency generators. During piping activities in 1998, the surrounding soil exhibited staining and odor related to diesel fuel impacts. A Discharge Reporting Form was submitted in 1998. A soil assessment was conducted at that time and approximately 20 tons of impacted soil were removed and disposed. Groundwater was also found to be contaminated. A supplemental assessment of soil and groundwater was conducted again in 2001 and 2002 which found the soil was still contaminated. In 2015 the site began cleanup, with monitoring wells installed in 2018. A Final Site Assessment Report was submitted for approval in June 2019 with the recommendation for No Further Action and abandonment of the monitoring wells. Currently, the cleanup status for this site is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.

SITE 2

Address: 1234 North 5th Avenue, Tampa, FL 33602
Distance from alignment: 200 feet
FDEP Registered Name: Former FL Brewery Site
Concern: HIGH

During the site visit, this site was a strip of businesses located south of the HART Streetcar Barn. The site is located approximately 200 feet from the existing Tampa Streetcar alignment. Based on FDEP information and EDR report, this site was a fuel user/non retail facility and had one UST on site. The UST leaked an unknown amount of leaded gas in 1994. Site assessment activities weren’t performed until 2016. A change in work order was submitted due to the realization of the wrong address for site assessment activities. A new notice for site access was submitted to the correct address in 2019. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.

SITE 3

Address: 101 S 13th Street, Tampa, FL 33602
Distance from alignment: 200 feet
FDEP Registered Name: Garrison Stevedoring Inc
Concern: MEDIUM

During the site visit, this site was a parking garage east of Channelside Drive across from the Florida Aquarium. The site is located approximately 200 feet from the existing Tampa Streetcar alignment. Based on FDEP information and EDR report, the site was a fuel user/non retail facility that had two USTs on site. The USTs were removed in 1993. A Discharge Reporting Form was submitted in 1993 in response to contaminated soil samples taken during closure activities. The site assessment was initiated in 1993 and finalized in 1996. An Initial Remedial Action Plan was completed in 1995 which resulted in 250 tons of soil.
SITE 4

**Address:** 908 East Eunice Street, Tampa, FL 33602  
**Distance from alignment:** 350 feet  
**FDEP Registered Name:** Kal-Mar Construction Inc  
**Concern:** LOW

During the site visit, this site was under construction. The site is located approximately 350 feet from the existing Tampa Streetcar alignment. Based on FDEP information and EDR report, the site was a fuel user/non retail facility that had two USTs on site. The USTs were installed in 1980 and were removed in 1989. A Phase I Environmental Site Assessment was conducted in 2009 and recommended further assessment activities be conducted. A Discharge Reporting Form was submitted in response to the discovery of contaminated soil and groundwater during the Phase II Environmental Site Assessment. A Site Rehabilitation Report was submitted with a No Further Action request which was approved in 2016. All monitoring wells have been removed from the site. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of LOW for potential contamination to impact the project alignment.

SITE 5

**Address:** 901 East Platt Street, Tampa, FL 33602  
**Distance from alignment:** 100 feet  
**FDEP Registered Name:** Tampa Bay Arena  
**Concern:** HIGH

During the site visit, this site was the Amelie Arena. The site is located approximately 100 feet from the existing Tampa Streetcar alignment. Based on FDEP information and EDR report, this site was a motor vehicle filling station and an auto body shop and vehicle repair garage and had 3 USTs on site. Petroleum contaminated soil and groundwater was detected in 1992 during the closure of the USTs. Phase I and Phase II Environmental Site Assessments were conducted in 1993 and 1994. A request for site assessment activities to assess the extent of the petroleum discharge at the facility was submitted in 2015. The site remains in the low score site initiative program but site assessment activities are on pause to allow the construction of the Amelie Arena to be complete. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.

SITE 6

**Address:** 100 Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 100 feet  
**FDEP Registered Name:** Pioneer Properties Associates LTD  
**Concern:** LOW

During the site visit, this site was the skyscraper AmSouth building. The site is located approximately 100 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a fuel user/non retail facility and had three USTs on site. A Discharge Reporting Form
was submitted in response to contamination discovered during the Phase I and Phase II Environmental Site Assessments. A Site Rehabilitation Report was submitted in 1991 and was approved in 1992. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of LOW for potential contamination to impact the project alignment.

**SITE 7**

**Address:** 400 North Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 60 feet  
**FDEP Registered Name:** Level 3 Communications  
**Concern:** MEDIUM

During the site visit, this site was a BB&T building. The site is located approximately 60 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, a fuel tank for a generator on site malfunctioned and resulted in 150 gallons of fuel spilled in 2002. The free product was removed and the site was cleaned. The site was granted No Further Action in 2018. The site undergoes annual inspections and proved to be out of compliance due to failure to provide monthly tank inspections and failure to provide overfill protection for shop fabricated tank systems. Based on the site visit and regulatory review, this facility is given a risk ranking of MEDIUM for potential contamination to impact the project alignment.

**SITE 8**

**Address:** 700 North Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 75 feet  
**FDEP Registered Name:** Tampa Electric Co-Teco Plaza  
**Concern:** LOW

During the site visit, this site was a parking garage with restaurants on the first floor. However, the site across North Tampa Street was the Teco Plaza, located at 702 North Franklin Street. The site is located approximately 75 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a fuel user/non retail facility that had two USTs on site. The USTs were installed in the 1950s. A Discharge Reporting Form was submitted in 1986 in response to dissolved petroleum hydrocarbon impacts in the groundwater. A Contamination Assessment Report was submitted in 1994. A Phase I Environmental Site Assessment was performed in 1999. Approximately 5,000 gallons of impacted groundwater and approximately 700 tons of contaminated soil were removed from the site. A No Further Action was granted in 2007 and all monitoring wells were removed. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of LOW for potential contamination to impact the project alignment.

**SITE 9**

**Address:** 1004 North Florida Avenue, Tampa, FL 33602  
**Distance from alignment:** 50 feet  
**FDEP Registered Name:** Pioneer Auto Service Center Inc  
**Concern:** LOW

During the site visit, this site was located within a strip of businesses. The site is located approximately 50 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a retail station with four USTs on site. Based on a Phase II Environmental Site
Assessment conducted in 1991, petroleum impacted soil and groundwater was detected. A Discharge Reporting Form was not submitted, however approximately 200 tons of impacted soil was removed from the site. A Contamination Assessment Report was submitted in 1992 and the site was granted No Further Action in 1993. An additional Site Assessment Report was conducted in 2006 and a No Further Action was granted again in 2014. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of LOW for potential contamination to impact the project alignment.

SITE 10

**Address:** 1005 North Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 75 feet  
**FDEP Registered Name:** Dominos Pizza  
**Concern:** MEDIUM

During the site visit, this site was Dominos Pizza. The site is located approximately 75 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a retail station with two USTs on site. A Discharge Reporting Form was submitted in 1996 in response to leaded gasoline contamination discovered through groundwater sampling and analysis. A Natural Attenuation Monitoring Report was submitted in 2018 and a No Further Action was granted in 2018. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of MEDIUM for potential contamination to impact the project alignment.

SITE 11

**Address:** Royal Street & Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 75 feet  
**FDEP Registered Name:** Tampa City Royal Street Parking Lot  
**Concern:** MEDIUM

During the site visit, this site was a free public parking lot located at the corner of Royal Street and Tampa Street. The site is located approximately 75 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site had eight USTs on site. A Discharge Reporting Form was submitted in 1987 in response to contaminated soil and groundwater discovered during site construction. Approximately 780 tons of soil were removed from the site. Three monitoring wells were installed prior to a Low Score Site Initiative Assessment performed in 2011. Site assessment activities are still being performed. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of MEDIUM for potential contamination to impact the project alignment.

SITE 12

**Address:** 1201 North Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 50 feet  
**FDEP Registered Name:** Porter Property  
**Concern:** HIGH

During the site visit, this site was a reserved parking lot for adjacent businesses with monitoring wells located in various locations. The site is located approximately 50 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a fuel user/non retail facility with five USTs on site. The USTs were removed in 1997. A Discharge Reporting Form was
submitted in 1997. Site assessment activities are still being performed at the site. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.

**SITE 13**

**Address:** 1710 North Tampa Street, Tampa, FL 33602  
**Distance from alignment:** 350 feet  
**FDEP Registered Name:** Tampa City Police Department  
**Concern:** LOW  

During the site visit, this site was the Florida Second District Court of Appeal. The site is located approximately 350 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was the former City of Tampa Police Station and was demolished in 2002. The site was occupied later in 2017 by Stetson Law School. The site had four USTs on site. The USTs were installed in 1960 and removed at an unknown date. Site assessment activities were performed to remediate the site. A No Further Action was granted and all monitoring wells were abandoned in 2018. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of LOW for potential contamination to impact the project alignment.

**SITE 14**

**Address:** 1112 North Florida Avenue, Tampa, FL 33602  
**Distance from alignment:** 75 feet  
**FDEP Registered Name:** Autobond Imports  
**Concern:** HIGH  

During the site visit, this site was a reserved parking lot for the adjacent business. The site is located approximately 75 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a retail facility with seven USTs on site. The tanks were installed in 1964 and removed in 1990. A Discharge Reporting Form was submitted in 1990. Site assessment activities were and are still being performed on the site. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.

**SITE 15**

**Address:** 400 East Harrison Street, Tampa, FL 33602  
**Distance from alignment:** 75 feet  
**FDEP Registered Name:** Methodist Place  
**Concern:** HIGH  

During the site visit, this site was VISTA 440, the downtown Tampa senior housing community. The site is located approximately 75 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, a Discharge Reporting Form was submitted in 2010 due to soil and groundwater contamination. Site assessment activities were and are still being performed on site. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.
SITE 16

**Address:** 905 North Florida Avenue, Tampa, FL 33602  
**Distance from alignment:** 75 feet  
**FDEP Registered Name:** Floridan Hotel  
**Concern:** HIGH

During the site visit, this site was the Floridan Hotel. The site is located approximately 75 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a gasoline dispensing facility from the 1920s to the 1960s with four USTs on site. A Discharge Reporting Form was submitted in 1995 due to elevated contamination concentrations detected in groundwater samples collected during tank closure activities. Site and contamination assessments were and are still being performed at the site. Currently, the cleanup status is incomplete. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.

SITE 17

**Address:** 801 North Florida Avenue, Tampa, FL 33602  
**Distance from alignment:** 200 feet  
**FDEP Registered Name:** US Federal Courthouse Sam Gibbon  
**Concern:** MEDIUM

During the site visit, this site was the Sam Gibbons Federal Courthouse. The site is located approximately 200 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, a Discharge Reporting Form was completed in 1995 based on discovery of contaminated soil and groundwater during construction on the courthouse. There was no indication of USTs or other tanks on site. The source of contamination may have been from an off-site source. The site was granted no cleanup required in 2004, however, additional investigation is recommended to determine the potential risk of contamination impacts existing at the site. Based on the site visit and regulatory review, this facility is given a risk ranking of MEDIUM for potential contamination to impact the project alignment.

SITE 18

**Address:** 401-405 East Kennedy Boulevard, Tampa, FL 33602  
**Distance from alignment:** 100 feet  
**FDEP Registered Name:** Land Trust #1 / Jackson Street Parking Lot  
**Concern:** HIGH

During the site visit, this site was under construction. The site is located approximately 100 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a retail facility with six USTs on site. There is no documentation on the UST removal or closure at the site. A Discharge Reporting Form was submitted in 1996 in response to contamination discovered during a Phase II Environmental Site Assessment. Site assessment activities are still being performed on the site. Currently, the cleanup status is incomplete. Additionally, this downtown parcel south of Kennedy Boulevard and east of Florida Avenue is located within the Jackson Street Parking Lot Brownfield. Based on the site visit and regulatory review, this facility is given a risk ranking of HIGH for potential contamination to impact the project alignment.
Address: 401 East Jackson Street, Tampa, FL 33602
Distance from alignment: 150 feet
FDEP Registered Name: Southeast Financial Center
Concern: LOW

During the site visit, this site was under construction. The site is located approximately 150 feet from the proposed Tampa Streetcar extension alignment. Based on FDEP information and EDR report, the site was a fuel user/non retail facility with one UST on site. During construction excavation on site in 1990 the tank was punctured and released 25 to 50 gallons of unknown liquid. Approximately 10 tons of soil was removed from the site and groundwater testing was performed. The site was remediated and a Monitoring Only Program was granted, A No Further Action was granted in 1992. Currently, the cleanup status is complete. Based on the site visit and regulatory review, this facility is given a risk ranking of LOW for potential contamination to impact the project alignment.

Project Alignment and Right of Way Acquisition

Modifications to the existing Tampa Streetcar alignment will require digging and excavation, where the proposed expansion of the streetway system will utilize an embedded track system, installing an 8-foot slab thickness within the existing pavement. However, there are six instances where right of way acquisition will be required to accommodate six of the proposed Streetcar stops along the proposed expansion alignment. These six stop locations are at:

1. North Florida Avenue south of East Fortune Street
2. North Florida Avenue south of East Lauren Street
3. North Florida Avenue between Oak Street and East 7th Avenue
4. Palm Avenue west of North Florida Avenue
5. North Tampa Street south of East Fortune Road
6. North Tampa Street and East Harrison Street

These six locations were cross checked with the locations of potential contamination and the findings are as follows:

1. North Florida Avenue south of East Fortune Street – Impact to Site 15 (HIGH)
2. North Florida Avenue south of East Lauren Street – No impact to identified sites
3. North Florida Avenue between Oak Street and East 7th Avenue – No impact to identified sites
4. Palm Avenue west of North Florida Avenue – No impact to identified sites
5. North Tampa Street south of East Fortune Road – Impact to Site 11 (MEDIUM)
6. North Tampa Street and East Harrison Street – Impact to Site 10 (MEDIUM)

Based on these results, the recommendation for Site 15, Site 11, and Site 10 follows the same recommendation for sites ranked MEDIUM and HIGH. Further investigation is needed to understand the level of potential contamination conditions at these sites. Level II field screening may be required.

Recommendations

For sites ranked “LOW” for potential contamination, no further action is required at this time. These sites/facilities have the potential to impact the study area, but have been determined to have low risk to the project at this time. Variables that may change the risk ranking include a facility’s non-compliance to
environmental regulations, new discharges to the soil or groundwater, and modifications to current permits. Should any of these variables change, additional assessment of the facilities would be conducted.

For those locations with a risk ranking of “MEDIUM” or “HIGH”, additional investigation and/or research is recommended to determine if there is potential impact to workers or construction. A review of files with the FDEP and discussions with case managers may provide enough information on the contamination conditions and concerns at these sites to eliminate them from consideration or provide information to refine future sampling needs. Level II field screening may be required in which a soil and groundwater sampling plan may be needed for each site.

Environment: Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and
Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

AIR EMISSIONS CLASSIFICATION UNKNOWN

Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Used oil transporter: No

Hazardous Waste Summary:

- Waste code: D001
- Waste name: IGNITABLE WASTE

Violation Status: No violations found

FINDS:
Registry ID: 110005642796

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

AIR EMISSIONS CLASSIFICATION UNKNOWN

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System
  AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is
SPRINT NEXTEL CORPORATION (Continued)

used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data

Environmental Interest/Information System
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (CIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

PIONEER AUTO SERVICE CENTER (Continued)

Description: Handler: Non-Generators do not presently generate hazardous waste

Owner/Operator Summary:
Owner/operator name: JOHN BARR
Owner/operator address: 1004 N TAMPA ST
                     TAMPA, FL 33602
Owner/operator country: US
Owner/operator telephone: Not reported
Owner/operator email: Not reported
Owner/operator fax: Not reported
Owner/operator extension: Not reported
Legal status: Private
Owner/Operator Type: Owner
Owner/Op start date: 10/18/1996
Owner/Op end date: Not reported

Handler Activities Summary:
U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Historical Generators:
Date form received by agency: 07/17/1991
Site name: PIONEER AUTO SERVICE CENTER
Classification: Conditionally Exempt Small Quantity Generator

Hazardous Waste Summary:
- Waste code: D001
  Waste name: IGNITABLE WASTE
- Waste code: D002
  Waste name: CORROSIVE WASTE
- Waste code: D018
  Waste name: BENZENE

Violation Status: No violations found

FINDS:
Registry ID: 110005604792

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

AIR - NOT APPLICABLE

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

| Description: Handler: generates 100 kg or less of hazardous waste per calendar month, and accumulates 1000 kg or less of hazardous waste at any time; or generates 1 kg or less of acutely hazardous waste per calendar month, and accumulates at any time: 1 kg or less of acutely hazardous waste; or 100 kg or less of any residue or contaminated soil, waste or
other debris resulting from the cleanup of a spill, into or on any land or water, of acutely hazardous waste; or generates 100 kg or less of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, of acutely hazardous waste during any calendar month, and accumulates at any time: 1 kg or less of acutely hazardous waste; or 100 kg or less of any residue or contaminated soil, waste or other debris resulting from the cleanup of a spill, into or on any land or water, of acutely hazardous waste

Handler Activities Summary:
U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): No
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Violation Status: No violations found

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

FINDS:
Registry ID: 110002526204

Environmental Interest/Information System
- RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

- Property Description: 0.82 acres of mainly parking lot with one historic building currently under renovations. Historically, the site is located in the oldest section of Ybor City. The reported oldest restaurant in Tampa was sited here in 1890. There have been many different buildings located at the site due to the devastating fires which occurred in 1908 and changes of usage. Historical city directories indicate that in 1925 WS Burgent operated a photographic studio on-site at 1410 East 7th Ave. and Angel Suarez operated a photographic studio at the same address in 1931. The site was mixed residential and commercial in use including: Anytime Emergency Locksmith; (2014) Kingdom First Property; (2014) Zoya lounge; (2010) Advanced Environmental Tech; (2010) Buddha Lounge; (2010) Czar; (2005) Myhomeinspect Inc; (1990-1993) El Goya Lounge &
Tracks; (1980-1986) El Goya Lounge; (1975) El Goya Restaurant; (1965-1971) Las Novedades Spanish Restaurant; (1909-1931) Adam Katz & Co. PCE contamination was detected in groundwater at the site in June 2016 (11ug/L PCE) appears to be emanating from an off-site source. Vapor assessment did not reveal VOCs in soil gas at the site.

Property Description: 0.82 acres of mainly parking lot with one historic building currently under renovations. Historically, the site is located in the oldest section of Ybor City. The reported oldest restaurant in Tampa was sited here in 1890. There have been many different buildings located at the site due to the devastating fires which occurred in 1908 and changes of usage. Historical city directories indicate that in 1925 WS Burgent operated a photographic studio on-site at 1410 East 7th Ave. and Angel Suarez operated a photographic studio at the same address in 1931. The site was mixed residential and commercial in use including: Anytime Emergency Locksmith; (2014) Kingdom First Property; (2014) Zoya Lounge; (2010) Advanced Environmental Tech; (2010) Buddha Lounge; (2010) Czar; (2005) Myhomeinspector Inc; (1990-1993) El Goya Lounge & Tracks; (1980-1986) El Goya Lounge; (1975) El Goya Restaurant; (1965-1971) Las Novedades Spanish Restaurant; (1909-1931) Adam Katz & Co. PCE contamination was detected in groundwater at the site in June 2016 (11ug/L PCE) appears to be emanating from an off-site source. Vapor assessment did not reveal VOCs in soil gas at the site.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

FINDS:

Registry ID: 110005601713

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

FINDS:
- Registry ID: 110005632100

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource
**DETSCO TERMINALS INC** (Continued)

Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

FINDS:
Registry ID: 110005609154

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Hazardous Waste Summary:
- Waste code: D001
  - Waste name: IGNITABLE WASTE
- Waste code: F003
  - Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
- Waste code: F005
  - Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Violation Status: No violations found

Registry ID: 110002524000

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Environmental Interest/Information System
AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

AIR MINOR

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

FINDS:
Registry ID: 110005598031

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Registry ID: 110002550720

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

FINDS:
- Registry ID: 110001412828

Environmental Interest/Information System
US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
TRIBUNE CO INC (Continued)

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

FINDS:
Registry ID: 110005592652

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Install Date: 01-FEB-2004
Substance: Diesel-emergen generator
Content Description: Emerg Generator Diesel
Gallons: 1000
Tank Location: ABOVEGROUND

Construction:
Tank Id: 4
Construction Category: Primary Construction
Construction Description: Steel

Tank Id: 4
Construction Category: Secondary Containment
Construction Description: Double wall - tank jacket

Piping:
Tank ID: 4
Piping Category: Primary Construction
Piping Description: Steel/galvanized metal

Tank ID: 4
Piping Category: Miscellaneous Attributes
Piping Description: Abv, no soil contact

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Property Description: The site is located at 2219 E. 5th Avenue in Tampa, Hillsborough County, Florida, and is identified by Hillsborough County Property Appraiser Folio No. 189350-0000. The 0.11-acre parcel is undeveloped grassed land and there are no current site improvements. The site was developed with a residence sometime between 1910 and 1914 which remained present until approximately 1970. An historic church building was moved to the site in 2003 and demolished in February 2016. The site is currently vacant grassed land. The current site owner is Tomybor Inc. which obtained the site from Resurgence, Inc. through a Corporate Warranty Deed dated February 4, 2004. Resurgence Inc. obtained the site from Clarence P Wilson Sr. through a Warranty Deed dated December 30, 1999, and Clarence Wilson obtained the site from Wilson Brothers Enterprises PA on September 2, 1998. Groundwater sampling was conducted (Sept. 1, 2016 by Terracon) at 3 sampling points (shallow and deep samples collected at each point) along the eastern site boundary and no 8260 VOC contaminants were detected above MDLs in the 6 groundwater samples.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

| Property Description: | Residential from approximately 1910 through the 1950s and then commercial (dentist, beauty salon, tailor) and mixed use apartments until the early 2000s. The City of Tampa obtained the site in 1990 from Daniel Devoe in 1990. Tampa Hillsborough Action Plan Inc. (THAP) and Widespread Inc. were additional owners. A potential heating oil UST fill port was observed during the August 2016 Phase I ESA site visit by Terracon. |

 Hazardous Waste Summary:

 - Waste code: D001
   - Waste name: IGNITABLE WASTE

 - Waste code: D035
   - Waste name: METHYL ETHYL KETONE

 - Waste code: F003
   - Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

 - Waste code: F005
   - Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
GULF MARINE REPAIR/HENDRY MARINE INDUSTR (Continued) 1000821959

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 69520

Waste code: D035
Waste name: METHYL ETHYL KETONE
Amount (Lbs): 69520

Waste code: F003
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Amount (Lbs): 69520

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Amount (Lbs): 69520

Facility Has Received Notices of Violations:

Regulation violated: 265.16(d)
Area of violation: TSD IS-General Facility Standards
Date violation determined: 07/21/2016
Date achieved compliance: 08/19/2016
Violation lead agency: State
Enforcement action: Not reported
Enforcement action date: Not reported
Enf. disposition status: Not reported

GULF MARINE REPAIR/HENDRY MARINE INDUS (Continued)

MAP FINDINGS

Default Air Classification Code: MAJ
Air Program: MACT Standards (40 CFR Part 63)
Activity Date: 2003-02-03 00:00:00
Activity Status Date: Not reported
Activity Group: Compliance Monitoring
Activity Type: Inspection/Evaluation
Activity Status: Not reported
Region Code: 04
Programmatic ID: AIR FL0000001205700442
Facility Registry ID: 110064306031
Air Operating Status Code: OPR
Default Air Classification Code: MAJ
Air Program: MACT Standards (40 CFR Part 63)
Activity Date: 2003-06-16 00:00:00
Activity Status Date: Not reported
Activity Group: Compliance Monitoring
Activity Type: Inspection/Evaluation
Activity Status: Not reported
Region Code: 04
Programmatic ID: AIR FL0000001205700442
Facility Registry ID: 110064306031
Air Operating Status Code: OPR
Default Air Classification Code: MAJ
Air Program: MACT Standards (40 CFR Part 63)
Activity Date: 2003-07-15 00:00:00
Activity Status Date: Not reported
Activity Group: Compliance Monitoring
Activity Type: Inspection/Evaluation
Activity Status: Not reported
Region Code: 04
Programmatic ID: AIR FL0000001205700442
Facility Registry ID: 110064306031
Air Operating Status Code: OPR
Default Air Classification Code: MAJ
Air Program: MACT Standards (40 CFR Part 63)
Activity Date: 2004-02-03 00:00:00
Activity Status Date: Not reported
Activity Group: Compliance Monitoring
Activity Type: Inspection/Evaluation
Activity Status: Not reported
Region Code: 04
Programmatic ID: AIR FL0000001205700442
Facility Registry ID: 110064306031
Air Operating Status Code: OPR
Default Air Classification Code: MAJ
Air Program: MACT Standards (40 CFR Part 63)
Activity Date: 2004-06-30 00:00:00
Activity Status Date: Not reported
Activity Group: Compliance Monitoring
Activity Type: Inspection/Evaluation
Activity Status: Not reported
Region Code: 04
Programmatic ID: AIR FL0000001205700442
Facility Registry ID: 110064306031
Air Operating Status Code: OPR
Default Air Classification Code: MAJ
Air Program: MACT Standards (40 CFR Part 63)
Activity Date: 2004-06-30 00:00:00
Activity Status Date: Not reported
Activity Group: Compliance Monitoring
Activity Type: Inspection/Evaluation
Activity Status: Not reported
Region Code: 04

FINDS:

Registry ID: 110064306031

Environmental Interest/Information System
AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

OSHA ESTABLISHMENT

AIR MAJOR

HAZARDOUS AND CRITERIA AIR POLLUTANT MAJOR

Registry ID: 110045611619

Environmental Interest/Information System
US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

OSHA ESTABLISHMENT

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

Florida Environmental System Today Application (FIESTA) Data Maintenance (FDM) system maintains entity, environmental interest and affiliation data for the State of Florida.

Property Description: Property is currently an undeveloped parcel located adjacent to the Encore development area of Tampa. History has included auto salvage/junk yard, retail gasoline facility, and portion of a ice company/cannery. The property was acquired by the City of Tampa in the late 1960’s - early 1970’s as part of urban renewal efforts.

Between 1941 and 1942, the Department of the Navy acquired 58.87 acres located on Hookers Point, on the east side of Ybor Channel in the City of Tampa for use by the Navy as a Naval Industrial Reserve Shipyard. In 1961 the Navy determined the site as surplus and in 1963 conveyed 58.38 acres of the property to the Tampa Port Authority and in 1964 returned the remaining 4.61 acres to the Tampa Electric Company. The Tampa Port Authority/George B. Howell Maritime Center has used the site and the facilities since that time. The Tampa Port Authority operates the property under investigation.

The land was acquired between 1941 and 1942 by the Navy for a naval industrial shipyard. The Navy constructed a fully operational shipyard, to include: warehouses, various utility buildings, compressed air distribution system, an acetylene distribution system, equipment houses, cranes, underground storage tanks and other miscellaneous improvements necessary to complete the sites mission. The site remained active until 1961 when the Navy decided its mission had been completed. The site was recommended as a Containerized/Hazardous, Toxic and Radioactive Waste (CON/HTRW) project site in August 1993. In 1997 an underground storage tank and associated piping were removed from the site and contaminated soil was removed and disposed of. A confirmatory groundwater sampling collected from the former tank pit following removal indicated the presence of lead in groundwater above the regulatory limit. A limited sampling at this site and a letter report confirming or denying the presence of contamination is the next objective.

</table>
To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

**NPL: National Priority List**
National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

- **Date of Government Version:** 04/11/2019
- **Date Data Arrived at EDR:** 04/18/2019
- **Date Made Active in Reports:** 05/14/2019

  - Telephone 206-553-8665

**Proposed NPL: Proposed National Priority List Sites**
A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

- **Date of Government Version:** 04/11/2019
- **Date Data Arrived at EDR:** 04/18/2019

**NPL LIENS: Federal Superfund Liens**
Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Data Release Frequency: Quarterly

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019  Source: Environmental Protection Agency
Date Data Arrived at EDR: 04/05/2019  Telephone: 703-603-8704
Date Made Active in Reports: 05/14/2019  Last EDR Contact: 07/03/2019
Number of Days to Update: 39  Next Scheduled EDR Contact: 10/14/2019
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA’s Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 04/11/2019  Source: EPA
Date Data Arrived at EDR: 04/18/2019  Telephone: 800-424-9346
Date Made Active in Reports: 05/23/2019  Last EDR Contact: 07/02/2019
Number of Days to Update: 35  Next Scheduled EDR Contact: 10/14/2019
Data Release Frequency: Quarterly

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA’s knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

RCRA-TSDF: RCRA - Treatment, Storage and Disposal
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transports are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

RCRA-LQG: RCRA - Large Quantity Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/25/2019

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators
RCRAInfo is EPA’s comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/25/2019

Number of Days to Update: 32  Next Scheduled EDR Contact: 09/09/2019
Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls
A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 01/31/2019  Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/04/2019  Telephone: 703-603-0695

STANDARD ENVIRONMENTAL RECORDS

State- and tribal - equivalent CERCLIS

FL SHWS: Florida’s State-Funded Action Sites
State Hazardous Waste Sites. State hazardous waste site records are the states’ equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 12/06/2018  Source: Department of Environmental Protection
Date Data Arrived at EDR: 02/20/2019  Telephone: 850-488-0190
Date Made Active in Reports: 03/12/2019  Last EDR Contact: 05/24/2019
Number of Days to Update: 20  Next Scheduled EDR Contact: 09/02/2019
Data Release Frequency: Semi-Annually

State and tribal landfill and/or solid waste disposal site lists

FL SWF/LF: Solid Waste Facility Database
Solid Waste Facilities/Landfill Sites. SWF/LF type records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. Depending on the state, these may be active or inactive facilities or open dumps that failed to meet RCRA Subtitle D Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 04/15/2019  Source: Department of Environmental Protection

State and Tribal Institutional Control / Engineering Control Registries

FL Eng Controls: Institutional Controls Registry

The registry is a database of all contaminated sites in the state of Florida which are subject to engineering controls. Engineering Controls encompass a variety of engineered remedies to contain and/or reduce contamination, and/or physical barriers intended to limit access to property. ECs include fences, signs, guards, landfill caps, provision of potable water, slurry walls, sheet pile (vertical caps), pumping and treatment of groundwater, monitoring wells, and vapor extraction systems.

Date of Government Version: 03/29/2019

State and tribal Brownfields sites

FL BROWNFIELDS: Brownfields Sites Database
Brownfields are defined by the Florida Department of Environmental Protection (FDEP) as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination.
Date of Government Version: 03/15/2019
Date Data Arrived at EDR: 04/03/2019
Date Made Active in Reports: 04/29/2019
Number of Days to Update: 26
Source: Department of Environmental Protection

Next Scheduled EDR Contact: 10/14/2019
Data Release Frequency: Semi-Annually

FL BSRA: Brownfield Site Rehabilitation Agreements Listing
The BSRA provides DEP and the public assurance that site rehabilitation will be conducted in accordance with Florida Statutes and DEP’s Contaminated Site Cleanup Criteria rule. In addition, the BSRA provides limited liability protection for the voluntary responsible party. The BSRA contains various commitments by the voluntary responsible party, including milestones for completion of site rehabilitation tasks and submittal of technical reports and plans. It also contains a commitment by DEP to review technical reports according to an agreed upon schedule. Only those brownfield sites with an executed BSRA are eligible to apply for a voluntary cleanup tax credit incentive pursuant to Section 376.30781, Florida Statutes.
Date of Government Version: 02/01/2019

FL BROWNFIELDS AREAS: Brownfields Areas Database
A "brownfield area" means a contiguous area of one or more brownfield sites, some of which may not be contaminated, that has been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. This layer provides a polygon representation of the boundaries of these designated Brownfield Areas in Florida.

**US BROWNFIELDS: A Listing of Brownfields Sites**

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

**IHS OPEN DUMPS: Open Dumps on Indian Land**

A listing of all open dumps located on Indian Land in the United States.
US HIST CDL: National Clandestine Laboratory Register
A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

Local Lists of Hazardous waste / Contaminated Sites

FL PRIORITYCLEANERS: Priority Ranking List
The Florida Legislature has established a state-funded program to cleanup properties that are contaminated as a result of the operations of a drycleaning facility.

FL SITES: Sites List
This summary status report was developed from a number of lists including the Eckhardt list, the Moffit list, the EPA Hazardous Waste Sites list, EPA’s Emergency & Remedial Response information System list (RCRA Section 3012) & existing department lists such as the obsolete uncontrolled Hazardous Waste Sites list. This list is no longer updated.

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

FL PFAS: PFOS and PFOA stand for perfluorooctane sulfonate and perfluorooctanoic acid
PFOS and PFOA stand for perfluorooctane sulfonate and perfluorooctanoic acid, respectively. Both are fluorinated organic chemicals, part of a larger family of compounds referred to as perfluoroalkyl substances (PFASs).
LIENS 2: CERCLA Lien Information
A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWAA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Source: FirstSearch
Telephone: N/A
Next Scheduled EDR Contact: N/A

**GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING**

FUDS: Formerly Used Defense Sites
The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

**DOD: Department of Defense Sites**
This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

**FEDLAND: Federal and Indian Lands**

**SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing**
The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

**US FIN ASSUR: Financial Assurance Information**
All owners and operators of facilities that treat, store, or dispose of hazardous waste are required to provide proof that they will have sufficient funds to pay for the clean up, closure, and post-closure care of their facilities.
EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes (a): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing
A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

- **Date of Government Version:** 10/19/2006
- **Source:** Environmental Protection Agency
- **Telephone:** 202-564-2501
- **Last EDR Contact:** 12/17/2008
- **Next Scheduled EDR Contact:** 03/17/2008
- **Data Release Frequency:** No Update Planned

HIST FTTS INSPI: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing
A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

CONSENT: Superfund (CERCLA) Consent Decrees
Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.
BRS: Biennial Reporting System
The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

INDIAN RESERV: Indian Reservations
This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

FUSRAP: Formerly Utilized Sites Remedial Action Program
DOE established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations.

UMTRA: Uranium Mill Tailings Sites
Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

LEAD SMELTER 1: Lead Smelter Sites
A listing of former lead smelter site locations.

LEAD SMELTER 2: Lead Smelter Sites
A listing of former lead smelter site locations.

Number of Days to Update: 97  Next Scheduled EDR Contact: 09/09/2019
Data Release Frequency: Varies

ABANDONED MINES: Abandoned Mines
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.
FINDS: Facility Index System/Facility Registry System
Facility Index System. FINDS contains both facility information and ‘pointers’ to other sources that contain more
detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric
Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial
enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal
Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities
Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

UXO: Unexploded Ordnance Sites
A listing of unexploded ordnance site locations

DOCKET HWC: Hazardous Waste Compliance Docket Listing
A complete list of the Federal Agency Hazardous Waste Compliance Docket Facilities.

ECHO: Enforcement & Compliance History Information
ECHO provides integrated compliance and enforcement information for about 800,000 regulated facilities nationwide.

FUELS PROGRAM: EPA Fuels Program Registered Listing
This listing includes facilities that are registered under the Part 80 (Code of Federal Regulations) EPA Fuels
Programs. All companies now are required to submit new and updated registrations.
FL AIRS: Permitted Facilities Listing
A listing of Air Resources Management permits.
Date of Government Version: 05/14/2019
Date Data Arrived at EDR: 05/16/2019
Date Made Active in Reports: 06/14/2019
Number of Days to Update: 29

Last EDR Contact: 06/18/2019
Next Scheduled EDR Contact: 08/05/2019
Data Release Frequency: Semi-Annually

FL DWM CONTAM: DWM CONTAMINATED SITES
A listing of active or known sites. The listing includes sites that need cleanup but are not actively being worked on because the agency currently does not have funding (primarily petroleum and drycleaning).
Date of Government Version: 01/28/2019
Date Data Arrived at EDR: 01/29/2019
Date Made Active in Reports: 03/28/2019
Number of Days to Update: 58
Source: Department of Environmental Protection
Telephone: 850-245-7503
Last EDR Contact: 07/08/2019
Next Scheduled EDR Contact: 10/21/2019
Data Release Frequency: Varies
FL Financial Assurance 1: Financial Assurance Information Listing
A list of hazardous waste facilities required to provide financial assurance under RCRA.
Date of Government Version: 04/26/2019
Date Data Arrived at EDR: 04/26/2019
Date Made Active in Reports: 06/06/2019
Number of Days to Update: 41
Source: Department of Environmental Protection
Telephone: 850-245-8793
Last EDR Contact: 04/25/2019
Next Scheduled EDR Contact: 08/12/2019
Data Release Frequency: Semi-Annually

FL Financial Assurance 2: Financial Assurance Information Listing
A listing of financial assurance information for solid waste facilities.
Date of Government Version: 04/25/2019
Date Data Arrived at EDR: 04/26/2019
Date Made Active in Reports: 06/06/2019
Number of Days to Update: 41
Source: Department of Environmental Protection
Telephone: 850-245-8743
Last EDR Contact: 04/25/2019
Next Scheduled EDR Contact: 08/12/2019
Data Release Frequency: Semi-Annually

FL Financial Assurance 3: Financial Assurance Information Listing
A listing of financial assurance information for storage tanks sites.
Date of Government Version: 05/02/2019
Date Data Arrived at EDR: 05/02/2019
Date Made Active in Reports: 06/06/2019

FL Cattle Dip. Vats: Cattle Dipping Vats
From the 1910’s through the 1950’s, these vats were filled with an arsenic solution for the control and eradication of the cattle fever tick. Other pesticides, such as DDT, were also widely used. By State law, all cattle, horses, mules, goats, and other susceptible animals were required to be dipped every 14 days. Under certain circumstances, the arsenic and other pesticides remaining at the site may present an environmental or public health hazard.
Date of Government Version: 01/19/2017

Statewide coverage of Site Investigation Section (SIS) sites. Site Investigation is a Section within the Bureau of Waste Cleanup, Division of Waste Management. SIS provides technical support to FDEP District Waste Cleanup Programs and conducts contamination assessments throughout the state.

A listing of facilities which store or manufacture hazardous materials that submit a chemical inventory report.

A listing of Class I wells. Class I wells are used to inject hazardous waste, nonhazardous waste, or municipal waste below the lowermost USDW.

Domestic and industrial wastewater facilities.

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR’s researchers. Manufactured gas sites were used in the United States from the 1800’s to 1950’s to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.
EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as “High Risk Historical Records”, or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR’s review was limited to those categories of sources that might, in EDR’s opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as “High Risk Historical Records”, or HRHR. EDR’s HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Agricultural Waste Listing
A listing of agricultural waste sites
Source: Miami-Dade County Division of Environmental Resources Management
Telephone: 305-372-6715

Liquid Waste Transporter List
The Liquid Waste Transporter permit regulates the transportation of various types of liquid and solid waste, including hazardous waste, waste oil and oily waste waters, septic and grease trap waste, biomedical waste, spent radiator fluid, photo chemical waste, dry sewage sludge, and other types of non-hazardous industrial waste. The Liquid Waste Transporter permits needed to protect the environment and the public from improperly handled and transported waste.
Source: DERM
Telephone: 305-372-6755

Grease Trap Sites
Any non-residential facility that discharges waste to a sanitary sewer.
Source: Dade County Dept. of Env. Resources Mgmt.
Telephone: 305-372-6508

Marine Facilities Operating Permit
What is this permit used for? Miami-Dade County Ordinance 89-104 and Section 24-18 of the Code of Miami-Dade County require the following types of marine facilities to obtain annual operating permits from DERM: All recreational boat docking facilities with ten (10) or more boat slips, moorings, davit spaces, and vessel tie-up spaces. All boat storage facilities contiguous to tidal waters in Miami-Dade County with ten (10) or more dry storage spaces including boatyards and boat manufacturing facilities.

Telephone: 305-372-3576

Maimi River Enforcement
The Miami River Enforcement database files were created for facilities and in some instances vessels that were inspected by a workgroup within the Department that was identified as the Miami River Enforcement Group. The files do not all necessarily reflect enforcement cases and some were created for locations that were permitted by other Sections within the Department.
Source: DERM
Telephone: 305-372-3576

Industrial Waste Permit Sites
Facilities that either generate more than 25,000 of wastewater per day to sanitary sewers or are pre-defined by EPA.
Date of Government Version: 05/28/2019

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools
