**Introduction/project description**

The **Dale Mabry/Henderson Stormwater Trunk Line Design-Build Project** (the Project) will be designed and constructed to meet the City's objective to alleviate flooding. The Project is located entirely within the City of Tampa, Florida along a roughly 8,100 linear foot corridor which starts at the Estrella Street outfall to Hillsborough Bay, and terminates at the intersection of Dale Mabry Highway and Watrous Avenue.

The Project is in the rights-of-way of the existing roadways within the described corridor, and in general, the new trunk line will be located within the roadway pavement area for the majority of the corridor. Other related work will be performed on the two seawalls that are adjacent to the Estrella Street outfall.

The Project includes design, permitting, construction, public outreach, land survey and related work as specifically described herein for installation of a new major stormwater trunk line that runs the length of the project corridor. The project will reduce the existing flooding during the 2.33 year, 24-hour storm event. The project includes replacement of the impacted roadways and utilities, maintaining existing traffic throughout the project limits, structural design for a new seawall near the outfall; design of sustainable/green infrastructure; a formal tree survey; and a detailed update to the existing XP-SWMM hydraulic model to verify sizing of the trunk line needed to meet the required level of service (LOS). The services included in this scope are limited to the design phase.

The purpose of this document is to describe the scope of work to clarify the responsibilities of Kimmins Contracting Corporation (Firm) and The City of Tampa (City).

The scope of services includes the following tasks:

**Task 1 Public Outreach**

Public outreach efforts are critical to meeting the City's goals. Stakeholders will include: homeowner associations, schools, small businesses, individual property owners along the corridor, governmental agencies, Southwest Florida Water Management District (SWFWMD), churches, and City. Efforts to be provided by the Firm during the 18-month design period include:

- Development of a Community Awareness Plan (CAP)
  - The CAP will encompass all the activities anticipated in the design and

construction phase. The CAP will define and outline the project approach for Public Involvement and Public Information services from design through construction and serve as a guide to the Firm's staff as they execute this task. It includes:

- **Project Overview:** Project History, Project Description, Community Description, Identifying Community Concerns/Issues)
  - **Identifying target audience and key stakeholders:** Comprehensive Database with contact information and key insights; Detailed plan for public and one-on-one meetings; Message Development; Communicating with Local Elected and Public Officials; Communicating with target audience and key stakeholders; Communicating with the public outside the project area; Meetings and Events; Printed Materials; Internet and Electronic Communication; Construction Schedule/Duration; Maintenance of Traffic; Other Construction Concerns
  - **Metrics – Stakeholder Feedback**
- Hosting of Project specific web site that is hosted by the Firm
  - Project related video (for public information meetings and website)
  - A 24/7 telephone hotline staffed by Firm for public communication
  - Facilitation, coordination, organization, attendance, notifications, documentation and preparation of all exhibits for public outreach meetings, including but not limited to:
    - Two meetings (corridor wide)

    - Individual homeowner meetings
    - School board
    - City of Tampa Council

## **Task 2 Data Collection**

Data collection activities to be accomplished by the Firm, are as outlined below:

  - Contamination Screening Evaluation Report (CSER) (Phase I report)
- b. Subsurface Utility Explorations (SUE) – utility explorations to designate and locate horizontal and vertical position (Verified Vertical Horizontals or VVHs) of utilities within the project corridor to facilitate trunkline design, water and wastewater relocates and for overall utility coordination purposes.
- c. Ecological Field Services and Jurisdictional Delineations – establishment of wetland jurisdictional limits, coordination with the SWFWMD and preparation of

an environmental memorandum to support the environmental resource permitting.

- d. Design Surveys – full topographic surveys necessary to support the project design; may include bathymetric survey for the outfall at Estrella St.
- e. Tree Survey and Arborist Report – tree survey by street address for all trees greater than 4" in diameter.

### **Task 3 Mapping**

Mapping efforts to be provided by the Firm, include the following:

- a. Sketches and legal descriptions – temporary construction easements for three parcels near the Estrella St outfall.
- b. Jurisdictional surveys – mapping of wetland or other jurisdictional areas.
- c. Subdivision mapping – to support the efforts for sketches and legal descriptions on the three anticipated parcels will locate those subdivision monuments (Permanent Reference Monuments (PRMs), Permanent Control Points (PCPs), and lot corners) necessary to determine the boundaries of the parent parcels that will have temporary construction easements associated with them.
- d. Property support services - assist the City in preparing for acquisition of the three temporary construction easements

### **Task 4 Hydrologic and Hydraulic Modeling Services**

A detailed update to the existing XP-SWMM hydrologic and hydraulic (H&H) model will be performed by the Firm, limited to two (2) storm events – the mean annual, and the 5-year high-intensity. Included are:

Existing Conditions Model Review and Update - for the Upper Peninsula Watershed using XP-SWMM encompassing approximately 6.1 square miles; is generally bounded on the north by I-275, on the south by Euclid Ave, Howard Ave/Lee Roy Selmon Expressway on the east and spans west to Tampa Bay. The contributing area to the project corridor is approximately 2.5 square miles and mainly consists of the Bayway Drive and Cedar Channel Basins.

Proposed Conditions Model Review and Update - Identify hydraulic improvements along the project corridor with the goal of reducing flooding for the two listed storm events using XP-SWMM. In addition to meeting the LOS criteria, XP-SWMM will also be used to demonstrate no adverse impacts downstream and the overall net benefit. The proposed hydraulic analysis will include applicable options to accommodate the needed LOS (i.e. alternative trunk line sizes for consideration). H&H modeling will include the Florida Department of Transportation (FDOT) connection at the eastern end of the project as conceptual only.

A Draft and Final Report will be prepared and submitted. Firm will provide five (5) hard copies and electronic copy in pdf format for staff review for both submissions.

## **Task 5 Project Management; Design and Construction Plans and Utility Coordination**

- a. **Project Management** - The Firm will provide project management services throughout the anticipated 18-month design stage, including but not limited to attending all meetings, plan document review meetings, engineering estimates, schedule updates, coordination, communication and quality control.

Plans will be submitted by the Firm at the following stages: 60%, 90%, and 100%. The 60% will be used for the SWFWMD cooperative funding activities. Three (3) electronic and hard copy submittals will be made. Anticipated package breakouts are expected for: Estrella, Watrous and Manhattan.

## Exhibit C

### CITY OF TAMPA INSURANCE REQUIREMENTS

Prior to commencing any work or services or taking occupancy under that certain written agreement or award (for purposes of this document, Agreement) between the City of Tampa, Florida (City) and Firm/Awardee/Contractor/Consultant/Lessee/non-City party, etc. (for purposes of this document, Firm) to which this document is attached and incorporated as an Exhibit or otherwise, and continuing during the term of said Agreement (or longer if the Agreement and/or this document so requires), Firm shall provide, pay for, and maintain insurance against claims for injuries to persons (including death) or damages to property which may arise from or in connection with the performance of the Agreement (including without limitation occupancy and/or use of certain property/premises) by Firm, its agents, representatives, employees, suppliers, subtenants, or subcontractors (which term includes sub-consultants, as applicable) of any tier subject to the terms and conditions of this document. Firm's maintenance of insurance coverage as required herein is a material element of the Agreement and the failure to maintain or renew coverage or provide evidence of same (defined to include without limitation Firm's affirmative duty to provide from time to time upon City's request certificates of insurance, complete and certified copies of Firm's insurance policies, forms, and endorsements, information on the amount of claims payments or reserves chargeable to the aggregate amount of coverage(s) whether during the term of the Agreement or after as may be requested by the City in response to an issue or potential claim arising out of or related to the Agreement to which Firm's insurance obligations hereunder may apply or possibly help mitigate) may be treated as a material breach of the Agreement. Should at any time Firm not maintain the insurance coverages required, City at its sole option (but without any obligation or waiver of its rights) may (i) terminate the Agreement or (ii) purchase such coverages as City deems necessary to protect the itself (charging Firm for same) and at City's option suspending Firm's performance until such coverage is in place. If Firm does not reimburse City for such costs within 10 days after demand, in addition to any other rights, City shall also have the right to offset such costs from amounts due Firm under any agreement with the City. All provisions intended to survive or to be performed subsequent to the expiration or termination of the Agreement shall survive, including without limitation Firm's obligation to maintain or renew coverage, provide evidence of coverage and certified copies of policies, etc. upon City's request and/or in response to a potential claim, litigation, etc.

The City reserves the right from time to time to modify or waive any or all of these insurance requirements (or to reject policies) based on the specific nature of goods/services to be provided, nature of the risk, prior experience, insurer, coverage, financial condition, failure to operate legally, or other special circumstances. If Firm maintains broader coverage and/or higher limits than the minimums shown herein, the City requires and shall be entitled to such broader coverage and/or higher limits maintained by Firm. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City. No representation is made that the minimum insurance requirements are sufficient to cover Firm's interests, liabilities, or obligations. Required insurance shall not limit Firm's liability.

Firm acknowledges and agrees Firm and not the City is the party in the best position to determine applicability (e.g. "IF APPLICABLE"), confirm, and/or verify its insurance coverage. Acceptance by the City, or by any of its employees, representatives, agents, etc. of certificates or other documentation of insurance or policies pursuant to the terms of this document and the Agreement evidencing insurance coverages and limits does not constitute approval or agreement that the insurance requirements have been met or that coverages or policies are in compliance. Furthermore, receipt, acceptance, and/or approval of certificates or other documentation of insurance or policies or copies of policies by the City, or by any of its employees, representatives, agents, etc., which indicate less coverage than required does not constitute a waiver of Firm's obligation to fulfill these insurance requirements.

Coverage can be provided in the form of an endorsement to Firm's insurance (at least as broad as ISO Form CG 20 10 11 85 or both CG 10 20, CG 20 26, CG 20 33, or CG 20 38 and CG 20 37 if later revisions used).

CANCELLATION/NON-RENEWAL - Each insurance policy shall provide that at least 30 days written notice must be given to City of any cancellation, intent to non-renew, or material reduction in coverage (except aggregate liability limits) and at least 10 days' notice for non-payment of premium. Firm shall also have an independent duty to notify City in like manner, within 5 business days of Firm's receipt from its insurer of any notices of same. If any policy's aggregate limit is reduced, Firm shall directly take steps to have it reinstated. Notice and proof of renewal/continued coverage/certifications, etc. shall be sent to the City's notice (or Award contact) address as stated in the Agreement with a copy to the following:

- Contract Administration Department, 306 E Jackson St, Tampa, FL 33602     Purchasing Department, 306 E Jackson Street, Tampa, FL 33602  
 Other: \_\_\_\_\_

CERTIFICATE OF INSURANCE (COI) - to be provided to City by insurance carrier prior to Firm beginning any work/services or taking occupancy and, if the insurance expires prior to completion of the work or services or Agreement term (as may be extended), a renewal COI at least 30 days before expiration to the above address(es). COIs shall specifically identify the Agreement and its subject (project, lease, etc.), shall be sufficiently comprehensive to insure City (named as additional insured) and Firm and to certify that coverage extends to subcontractors' acts or omissions, and as to permit the City to determine the required coverages are in place without the responsibility of examining individual policies. **Certificate Holder must be The City of Tampa, Florida.**

CLAIMS MADE - If any liability insurance is issued on a claims made form, Firm agrees to maintain such coverage uninterrupted for at least 3 years following completion and acceptance of the work either through purchase of an extended reporting provision or purchase of successive renewals. The Retroactive Date must be shown and be a date not later than the earlier of the Agreement date or the date performance/occupancy began thereunder.

DEDUCTIBLES/ SELF-INSURED RETENTIONS (SIR) - must be disclosed to City and, if over \$500,000, approved by the City in advance and in writing, including at City's option being guaranteed, reduced, or eliminated (additionally if a SIR provides a financial guarantee guaranteeing payment of losses and related investigations, claim administration, and defense expenses). Firm shall be fully responsible for any deductible or SIR (without limiting the foregoing a policy with a SIR shall provide or be endorsed to provide that the SIR may be satisfied by either the City or named insured). In the event of loss which would have been covered but for a deductible or SIR, City may withhold from any payment due Firm, under any agreement with the City, an amount equal to same to cover such loss should full recovery not be obtained under the policy.

PERFORMANCE - All insurance policies shall be fully performable in Hillsborough County, Florida (the County), and construed in accordance with Florida law. Further, all insurance policies must expressly state that the insurance company will accept service of process in the County and that the exclusive venue for any action concerning any matter under those policies shall be in the appropriate state court of the County.

PRIMARY POLICIES - Firm's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as to the City, its elected officials, departments, officers, employees, and volunteers. Any insurance or self-insurance maintained by the City, its elected officials, departments, officers, employees, and volunteers shall be excess of the Firm's insurance and shall not contribute with it.

SUBCONTRACTORS/INDEPENDENT ASSOCIATES/CONSULTANTS/SUBTENANTS/SUBLICENSEE - Firm shall require and verify that all such entities maintain insurance meeting all requirements stated herein with the City as an additional insured by endorsement (ISO FORM CG 20 38, or broader) or otherwise include such entities within Firm's insurance policies. Upon City's request, Firm shall furnish complete and certified copies of copies of such entities' insurance policies, forms, and endorsements.

SUBCONTRACTOR DEFAULT INSURANCE, CONTROLLED INSURANCE PROGRAM, WRAP-UP. Use requires express prior written consent of City Risk Manager.

UNAVAILABILITY - To the fullest extent permitted by law, if Firm is out of business or otherwise unavailable at the time a claim is presented to City, Firm hereby assigns to the City all of its right, title and interest (but not any liabilities or obligations) under any applicable policies of insurance.

WAIVER OF SUBROGATION - With regard to any policy of insurance that would pay third party losses, Firm hereby grants City a waiver of any right to subrogation which any insurer of Firm may acquire against the City by virtue of the payment of any loss under such insurance. Firm agrees to obtain any endorsement that may be necessary to affect such waiver, but this provision shall apply to such policies regardless.

WAIVER/RELEASE AGREEMENT - Where Firm has a defined group of persons who might be exposed to harm (e.g. participants in an athletic event/program, volunteers) any waiver or release agreement used by Firm whereby such persons (and their parent/guardian as applicable) discharge Firm from claims and liabilities, shall include the City, its elected officials, departments, officers, officials, employees, and volunteers to the same extent as Firm.

- The CM (or D-B) participates in a meeting to establish aspirational goals for SLBE or W/MBE subcontractor participation for the project.
- For each subcontracting package to be bid, the CM (or D-B) confirms with the MBD Office, the list of available SLBE or W/MBE firms to be solicited.
- The CM (or D-B) documents notification of all potential subcontractors, including the SLBE or W/MBE firms identified above
- The CM (or D-B) receives, opens, and tabulates subcontract bid results. The City, including representatives of the managing department and the MBD Office, may be present for the bid openings or to review the bids submitted.
