

Utility Service Application

Single Family Residence/Duplex

Thank you for contacting the City of Tampa for your water and wastewater utility service needs. We have assembled this package to help ensure that your new water and wastewater services are activated as quickly as possible, to provide you with copies of the required documents and to help guide you through the process of obtaining new service.

Please be advised that the City of Tampa is organized into separate departments to provide water and wastewater services. As a result, you will be required to coordinate with representatives from both departments to obtain each of these services.

In order to facilitate the application process, the Water and Wastewater Departments utilize combined utility applications (enclosed). This application package is for single family residence projects. A different application is used for multi-family or non-residential projects. This application form is available at www.tampagov.net/establishutilityservice. In addition to the application, supplemental documentation may be required by one or both Departments.

This application packet contains:

- Utility Service Application
- Water Meter Placement Form
- Sewer Lateral Placement Form

Assistance with the completion and submission of the forms in this packet is available in person at the City of Tampa Development Services Center, 1400 North Boulevard, or by contacting a Client Facilitator at (813) 274-3100.

City of Tampa Water Department Water Meter Placement Form

Please indicate, with an "X", where on your property you would like your meter installed. Show driveways, fences and other obstruction. Designate nearest intersecting streets and direction. If converting from a well, please indicate existing well location with a "W."

Name: _____

Address: _____

Phone: _____

Please note: If meter placement is not indicated, the City of Tampa will select the most appropriate meter placement location. Additionally, the City of Tampa reserves the right to place the meter in an alternate location if they cannot accommodate the customers request.

City of Tampa Wastewater Department Sewer Lateral Placement Form

This form should be used for addresses where no sewer service laterals are present or a new location is requested (or submit a site plan). Please indicate with an "X", where on the property you would like the lateral installed. Show driveways, fences and existing obstructions. Designate nearest intersecting streets and direction (Costs and installation will be delayed until this form or a site plan is received).

Name: _____

Address: _____

Phone: _____

Please note: if lateral placement is not indicated, the City of Tampa will select the most appropriate lateral placement location. Additionally, the City of Tampa reserves the right to place the lateral in an alternative location if they cannot accommodate the customers request.
